

Stephen M. Tropp, DDS

Dr. Stephen Tropp graduated with a Bachelor of Science degree from the University of Pittsburgh after majoring in Molecular Biology-Biochemistry. As an undergraduate, he participated in the “Semester at Sea” program which allowed him to travel all over the world and inspired him to study cleft lip and palate in Guatemala. This resulted in a publication in the Cleft Palate Craniofacial Journal. During dental school he pursued his craniofacial research interests and authored a publication in the journal of Human Molecular Genetics.

After receiving his Doctor of Dental Surgery (DDS), Dr. Tropp and his wife moved to Cincinnati, OH where he practiced as a general dentist for two years while she completed training in pediatric dentistry.

Dr. Tropp joined PERFECT TEETH™ because he believes he will “be able to work well and have fun with highly qualified staff members. I believe I will be supported as a dentist and will be able to provide my patients with exceptional dentistry.” Dr. Tropp is passionate about continuing education as he is currently a member of the American Dental Association as well as the American Academy of General Dentistry.

When not practicing dentistry Dr. Tropp is a family man, and loves spending time with his wife and new baby girl. Friends are also very important to him, and he does his best to maintain the friendships he has built throughout the years. He has a long standing passion for travel, and has been able to visit multiple countries and continues to add more to his list as time goes on. He is an athlete, and loves playing soccer and skiing as much as possible in his spare time.

We cannot wait for you to meet Dr. Stephen Tropp in person!

The **PERFECT TEETH™** network of dental offices is the largest provider of dental services throughout Colorado, New Mexico, and Arizona with 65+ offices and more than 100 dentists providing both general and specialty dental services.
